

Mario Oval Dining Table

MY HABITAT

Mario Oval Dining Table

Crafted from a single material, this table features a 3 cm thick oval top with a full bullnose edge, supported by four cylindrical legs that create an artful, sculptural presence.

After years of sourcing premium-quality stones and collaborating with skilled artisans, we now offer a curated selection of unique stone options for various table designs. View larger images of available stones for this design in the Stone Selection Catalog below.

The table is pictured in Red Travertine, a stone that changes in appearance depending on how its finished—its colour becomes more vibrant with a polished (shiny) finish, while a honed finish gives it a softer, pinkish-red hue.

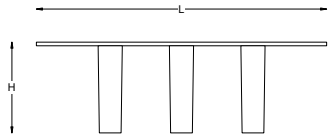

The collection is fully customisable—use the inquiry form to request specific sizes, stones, or personalised design details to match your vision.

For added flexibility, the length or width can be adjusted by ≈ 10 cm and the height by ≈ 5 cm at no extra cost—simply specify your preference in the checkout notes.
